# WHY HOLLAND?

## 10 fast facts about Holland

In our small country, there are about 17 million inhabitants from 190 different nationalities.

We have a King, Willem-Alexander, who's birthday is largely celebrated on April 27th.

We are happy people. The Dutch are in 6th place in the World Happiness Index.

Soccer is the most popular sport in the Netherlands. A bad performance by the national team causes major depression!

Orange is our national colour.

The Netherlands is one of the top 3 coffee drinking countries in the world.

You can dance the night away. The best DJ's are from Holland.

Holland is as flat as a pancake and a quarter of our country lies below sea level. Luckily we have around 17,000 km of dikes.

Cycling is our favorite mode of transport. We have more bikes than people.

Dutch men are the tallest in the world.

## HERE'S WHY!

There are many good reasons to study in Holland. Dutch education is one of the most innovative and forward thinking systems in the world. It's based on student-led learning, debate and hands-on experience. Holland also offers a high standard of living at a fairly low cost. Dutch society is liberal and open-minded with a vibrant cultural scene. You'll be part of a dynamic cosmopolitan and multi-cultural community right in the heart of Europe. We're a small country with a big international presence and boast the 18th largest economy in the world. Some of the world's biggest multinationals, including Philips, Heineken, KLM, Shell, ING Bank and Unilever are Dutch. Sony, Sara Lee and Microsoft all have their European head offices here. It's an accessible country too. Visas are easy to obtain and you don't have to worry about speaking Dutch - almost everyone speaks English.

### Five Dutch 'to-dos'

- ✓ Check your weather app every day
- ✓ Rent or buy a bicycle
- ✓ Join our introduction week activities
- ✓ Learn a few words of Dutch
- ✓ Be punctual

### The Netherlands vs. Holland

Our official name is 'The Kingdom of the Netherlands'. Holland only consists of two of our 12 provinces - North and South Holland. But we usually use the name Holland when we refer to the whole country. To make things even more confusing the word 'Dutch' is used to refer to someone or something from Holland.

## About the international vibe

**Hugo Martinez**

Former Exchange student from Spain  
Campus Delft

“ Instead of working on a project on my own, I have the opportunity to work with students from all over the world. We are making an electric car together. The car is important, of course, but being in the Netherlands is also a nice change of scenery. The campus is so different - it's green and everything here is infused with innovation. ”

## 'Heads up' on Dutch higher education

- ✓ We're in the world's top 10 for higher education
- ✓ 1 in 10 university students comes from abroad
- ✓ The cost of higher education is very affordable
- ✓ We offer 2,100+ English programmes
- ✓ Our teaching style is interactive and student centred

# WHY THE HAGUE?

## HERE'S WHY!

The Hague is the perfect location to become a world citizen. It's the International City of Peace and Justice - the political and cultural heart of the Netherlands. It's home to the Peace Palace, International Court of Justice, Binnenhof (parliament), 115 embassies, multinationals like Shell, Siemens and ING and many international NGOs. It's a small and hospitable city with a big international heart. The Hague is bursting with culture and creativity and offers students an all-round experience, from galleries packed with Dutch masters to idyllic beaches, parks and buzzing nightclubs.

## The Hague in a nutshell

- ✓ International City of Peace, Justice and Security
- ✓ United Nations city
- ✓ 500,000+ inhabitants from 180 different nationalities
- ✓ 40,000+ students
- ✓ >130 international institutes
- ✓ 80 justice organisations
- ✓ Seat of the Dutch government
- ✓ Home of the International Court of Justice, International Yugoslavia Tribunal, Europol, the International Criminal Court, the Special Tribunal of Lebanon and foreign embassies
- ✓ >170 NGOs, like Unicef and Oxfam Novib
- ✓ A coastline with sandy beaches, such as Scheveningen and Kijkduin

## Your Hague diary

### January

Join the crowds in Scheveningen on 1 January and plunge into the ice cold North Sea for a fresh start to your new year.

### February

Enjoy live music, dance, cabaret and poetry during Stukafest, when student venues transform into mini theatres.

### March

The Movies That Matter human rights film festival takes place in The Hague. THUAS students help select the film for the Student's Choice Award.

### April

The eve of our biggest national event, King's Day, is traditionally celebrated in The Hague with live music.

### May

The Hague hosts the biggest Eurasian festival in the world – the Tong Tong Fair.

### June

See the city's hedonistic side at Parkpop, Europe's largest free festival.

### July

Travelling theatre festival The Parade visits The Hague.

### August & September

We start the new academic year with several activities like the Oh Oh Intro festival in The Hague and Owee week in Delft.

### September

The Hague commemorates the UN's International Day of Peace during the Just Peace festival.

### November

The Crossing Border Festival celebrates the international worlds of literature and music.

### December

Dozens of cafés and clubs in The Hague join forces for the XXL-Mas Party.

## TRAVEL TIME BY TRAIN

## About the capital of law

**Diana Carolina Bedoya**

Former International and European Law student from Colombia

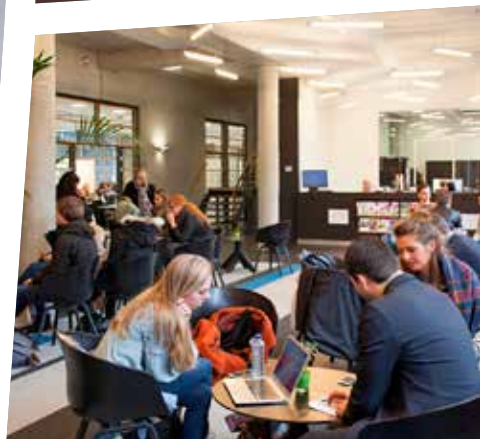

“ I love The Hague. I’m studying International and European Law and this is the perfect place for that. The Hague is known as the ‘capital of law’. Here, you can find the International Criminal Court and the International Court of Justice. Also, the city is really internationally oriented. THUAS students are involved in many events and there are many projects where we get the chance to debate. What I really like is that we can use the library at the Peace Palace. It’s so cool to be able to study in such a historical and meaningful environment. ”

Find out more about The Hague at [www.thehague.nl](http://www.thehague.nl)

# WHY THE HAGUE UNIVERSITY OF APPLIED SCIENCES?

## HERE'S WHY!

Let's change! You. Us. The World. That's our message at The Hague University of Applied Sciences (THUAS). We want to empower you to change and improve the world you live in, but that can only happen if we work together to make a difference.

THUAS is a place where theory and practice meet - that's what makes us a university of applied sciences. During your time with us you'll be supported by our inspiring lecturers, fellow students and an extensive network from the professional world. When you finish your journey you'll be able to apply your knowledge and skills right away.

## HOW WE WORK

At THUAS, it's not just about studying, we're here to help enrich your personal growth. We encourage our students, lecturers and partners to become world citizens - to think 'outside the box' and stand their ground.

THUAS is an innovative environment where almost 26,000 students from nearly 150 different countries come together to share in development, networking and practice. All of our programmes revolve around group and project work and simulate real-life situations.

During interactive classes, your lecturers will ask questions, set assignments and encourage debates and presentations to hone analytical skills that are critical in business, in your future career.

THUAS has campuses in The Hague, Zoetermeer and Delft, with state of the art facilities, onsite cafés and free Wi-Fi.

## Our bachelor's & master's programmes

- ✓ **43 full-time bachelor's programmes**
- ✓ **Of which 11 programmes are fully taught in English**
- ✓ **Our bachelor's programmes take 3 to 4 years**
- ✓ **8 master's programmes**
- ✓ **Of which 3 are fully taught in English**
- ✓ **Our master's programmes take 1 to 2 years**

## Our other programmes

- ✓ **English Academic Preparation School**  
to improve your English language and study skills to meet the entrance requirements for one of our bachelor's or master's programmes
- ✓ **The Hague Summer and Winter School**  
A cutting edge 2 to 4 week modular course for students who have at least completed their first year bachelor's degree
- ✓ **The Hague Pathway College**  
The Hague Pathway College (THPC) offers academic pathways in partnership with the university, which lead to globally recognised undergraduate degrees
- ✓ **Exchange and free mover programmes**  
For a truly international exchange experience of 6 months or 1 year come to THUAS, located in The Hague, the international city of Peace and Justice

## Our 7 study fields

- ✓ **Business, finance and marketing**
- ✓ **Health, nutrition and sports**
- ✓ **IT and design**
- ✓ **Management and organisation**
- ✓ **Public management, law and safety**
- ✓ **Social work and education**
- ✓ **Technology, innovation and society**

## THE BIGGER PICTURE

During your degree, you'll get the chance to gain hands-on experience on compulsory work placements. This is your chance to put learning into practice at a global, commercial or non-profit organisation of your choice.

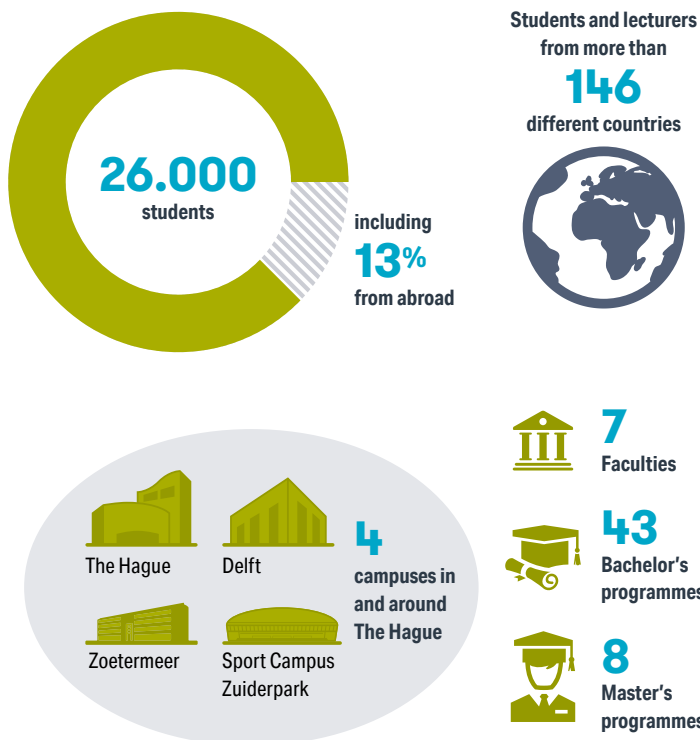

All of our courses have a strong international emphasis, with opportunities for placements in The Hague and overseas. You can tap into THUAS's network and travel as far as Japan, Argentina and the USA.

## DOWNTIME

Becoming a global citizen is all about personal development. This is why we encourage our students to take part in our extracurricular activities, which focus on global and interdisciplinary issues.

Besides the more serious events, there are also plenty of opportunities to socialise and just have fun. You can join one of THUAS's many student organisations, ranging from international associations to the rowing club or student orchestra. Our cultural office (ACKU) will keep you up to date with all kinds of cultural events in The Hague.

## THUAS in numbers

All our programmes are accredited by The Accreditation Organisation of the Netherlands and Flanders (NVAO).

## About her study choice

**Taylor Mae Bouwman**  
European Studies fast-track student  
from the Netherlands

“ Studying at a university of applied sciences suits me really well. In comparison to a research university, the way of educating focuses more on your skills. When you are required to do a presentation, you will be first taught how to present yourself. How do you make sure people listen to you? Another difference is the level of personal attention. My tutor is sincerely concerned with my well-being. Lecturers will greet you in the hallway and know who you are. ”

## The difference between a university of applied sciences and a research university

There are two types of universities in the Netherlands - traditional research universities (WO) and universities of applied sciences (HBO). Both offer bachelor's and master's programmes, but vary in their teaching methods.

HBO universities, like THUAS, put the emphasis on practical tuition and focus on your future career. You'll learn by working on 'real life' projects in close cooperation with the outside world.

At a HBO university such as THUAS, you will do a compulsory internship or work placement to apply the theory you have learned into practice.

We focus on training and career preparation and work closely with professionals to make sure that our programmes are cutting edge and industry relevant. Businesses and institutions help design our curricula, which means they are hands-on, solution based and market ready. Our lecturers are working professionals, who'll give you a first-hand insight into their field.

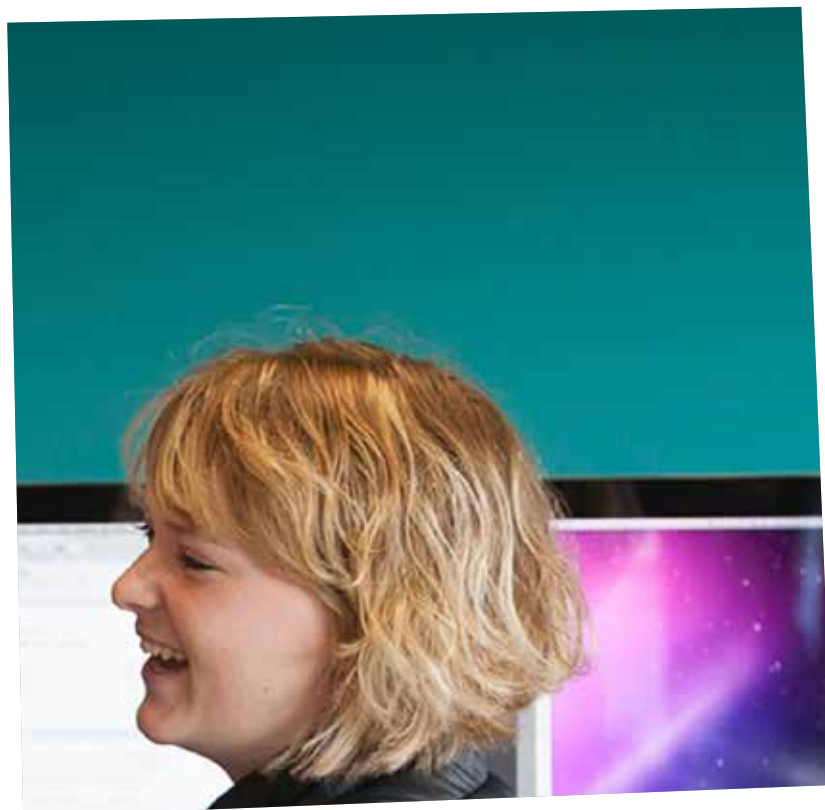

WO universities tend to run more theory and research based courses and students attend larger lectures and work independently. HBOs have a more personal approach with smaller classes.

Please note: A THUAS bachelor will not necessarily qualify you for a master at a WO university in the Netherlands - you may need to take additional courses.

# OUR BACHELOR'S PROGRAMMES

At THUAS we currently run 43 full-time bachelor's programmes, 11 of which are taught fully in English. Our bachelor's programmes normally take four years to complete. However, some of our programmes are offered both in three and four years and some are offered only in three years. Please read the admission requirements carefully to see for which programme you are eligible.

All students go on an internship for one semester (half the academic year).

A bachelor's programme is a natural progression for many after high school and that first step into higher education. They can vary in structure, from research based to more practical courses.

At THUAS, all of our bachelor's degrees are founded on international and practical approaches, personal development and academic content. You'll be taught through a mix of lectures, small group seminars, tutorials, self-guided study, individual assignments and exams, finishing with your thesis.

Find out more about THUAS's bachelor's programmes at [www.thehagueuniversity.com/programmes/bachelors](http://www.thehagueuniversity.com/programmes/bachelors)

# European Studies (ES-4)

- ✓ **Duration: 4 years**
- ✓ **Accreditation: NVAO**
- ✓ **Tuition fees\*:**  
EU/EEA € 2,083  
Non EU/EEA € 8,140
- ✓ **Application deadline:**  
Non-EU/EEA: 1 May 2020  
Dutch: 1 May 2020  
EU/EEA: 1 May 2020

In the 21<sup>st</sup> Century, young professionals need career options and flexibility, while employers need adaptable, future-proof workers to help their organisations, institutions or businesses to keep up with the times. European Studies meets these needs with an interdisciplinary programme that combines the study of European culture, economics, and politics with a practical approach to sustainable management and marketing.

A Bachelor of Arts in European Studies gives you a good grasp of governance and gets you ready to do business in Europe. You'll also acquire critical thinking and international communication skills – including foreign languages – and practice them during an exchange and internship, making you adaptable to change and increasing your employability. You can get straight to work helping Europe and its organisations to face the future.

\* Tuition fees are set annually. Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

Curriculum			
<b>Year 1: Understanding Europe</b>	<b>Semester 1</b> <ul style="list-style-type: none"><li>European Politics, Economics, History &amp; Culture</li></ul>	<b>Semester 2</b> <ul style="list-style-type: none"><li>European Institutions, Organisations &amp; Businesses</li></ul>	<ul style="list-style-type: none"> <li>Development of Professional Skills – Research, Academic &amp; Professional Writing, Public Speaking, Intercultural Communication, Project Management, Negotiation &amp; More</li> <li>Modern Foreign Languages – French, German or Spanish</li> <li>Reflection &amp; Career Orientation with Supervision &amp; Coaching</li> </ul>
<b>Year 2: Sustaining Europe</b>	<b>Semester 1</b> <ul style="list-style-type: none"><li>Public &amp; Private Sector Sustainability</li><li>Governance &amp; Decision-Making</li></ul>	<b>Semester 2</b> <ul style="list-style-type: none"><li>Peace &amp; Security in Europe</li><li>Public &amp; Private Sector Governance</li><li>Non-Governmental Organisations</li></ul>	
<b>Year 3: Discovering Europe</b>	<b>Semester 1</b> <ul style="list-style-type: none"><li>Exchange to a partner university for customised study or minors for some students</li></ul>	<b>Semester 2</b> <ul style="list-style-type: none"><li>Diversity in Europe &amp; its Organisations</li><li>Policy Advice for Organisations</li><li>Conflict Resolution</li></ul>

# European Studies (Accelerated fast-track) (ES3)

- ✓ **Duration: 3 years**
- ✓ **Accreditation: NVAO**
- ✓ **Tuition fees\*:**  
EU/EEA € 2,083  
Non EU/EEA € 8,140
- ✓ **Application deadline:**  
Non-EU/EEA: 1 May 2020  
Dutch: 1 May 2020  
EU/EEA: 1 May 2020

This fast-track version of our interdisciplinary European Studies programme (ES3) empowers you to take on tomorrow's challenges with a unique mix of business, politics, culture, languages and communications skills. It includes an exchange abroad and an international internship and allows you to customise your studies to your own interests. At the end, you'll be ready for a wide range of jobs as a policy advisor, project manager, event planner, business manager, marketing professional or public relations officer for different public and private sector organisations, or for an international master's programme.

The fast-track is more intensive and requires more independence and self-study. Both programmes have a practical, career-oriented approach where the focus is on putting theory into practice, resulting in professional products, from policy proposals to marketing plans and both prepare you to pursue an international master's degree in public policy, marketing and communications, international relations or business management, or to get straight to work helping Europe's organisations to face the future.

\* Tuition fees are set annually. Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

Curriculum			
<b>Year 1</b>	<ul style="list-style-type: none"> <li>The Cultural Dimension of Europe</li> <li>Intro to Research</li> <li>Oral Presentations</li> <li>The Political Dimension of Europe</li> <li>The Business Dimension of Europe</li> <li>English Practicals</li> <li>Intercultural Communication</li> <li>Project Management &amp; Focus on Europe Today Project</li> </ul>	<b>Semester 2</b> <ul style="list-style-type: none"> <li>Management of Organisations</li> <li>Foundations of Marketing</li> <li>Institutions of the EU</li> <li>World Citizenry: IGOs &amp; NGOs</li> <li>Intercultural Communication</li> <li>Advanced Research</li> <li>Professional Argumentation</li> </ul>	<b>Throughout the Year</b> <ul style="list-style-type: none"> <li>Modern Foreign Languages</li> <li>English Writing</li> <li>Career Development</li> </ul>
<b>Year 2</b>	<b>Semester 1</b> <ul style="list-style-type: none"> <li>Issues in the 21<sup>st</sup> Century</li> <li>European Public Policy</li> <li>Strategic Planning in the Public &amp; Private Sector</li> <li>The Hague Summit +20 Simulation</li> <li>Modern Foreign Languages</li> </ul> <b>Customised units chosen by students:</b> <ul style="list-style-type: none"> <li>Politics in Practical Application</li> </ul> Or <ul style="list-style-type: none"> <li>Strategic Export Marketing</li> </ul>	<b>Semester 2</b> <b>Exchange Semester</b> <ul style="list-style-type: none"> <li>Students follow courses of their own choosing at a partner university</li> <li>International students can choose not to go on exchange and follow minors at The Hague University of Applied Sciences instead</li> </ul>	
<b>Year 3</b>	<b>Semester 1</b> <ul style="list-style-type: none"> <li>The Legal Dimension of Europe</li> </ul> <b>Continuation of Customised Courses</b> <ul style="list-style-type: none"> <li>Politics in Practical Application</li> </ul> Or <ul style="list-style-type: none"> <li>Strategic Export Marketing</li> </ul>	<b>Semester 2</b> <b>Work Placement</b> <p>Students gain international work experience at:</p> <ul style="list-style-type: none"> <li>A small, medium or large company</li> <li>A political organization or institution</li> <li>A non-profit organisation</li> </ul>	<b>Final Projects</b> <p>Students choose a final research project.</p> <p>A Theoretical Dissertation about:</p> <ul style="list-style-type: none"> <li>Public Affairs</li> <li>International Relations</li> <li>Management Strategy</li> </ul> Or <p>Applied Research for an Employer</p> <ul style="list-style-type: none"> <li>A Marketing/Export Plan</li> <li>Policy Advice</li> </ul>

Please check [www.thehagueuniversity.com/es](http://www.thehagueuniversity.com/es) for the most up to date information on the curriculum and admission requirements.

# Industrial Design Engineering (IDE)

- ✓ **Duration: 3 years**
- ✓ **Accreditation: NVAO**
- ✓ **Tuition fees\*:**  
EU/EEA € 2,083  
Non EU/EEA € 8,140
- ✓ **Application deadline:**  
Non-EU/EEA: 1 May 2020  
Dutch: 1 May 2020  
EU/EEA: 1 May 2020

IDE will nurture your exploration techniques, creativity and entrepreneurship whilst training you to become an open innovator who can design products and services.

During this modular programme you'll learn to co-create with users and authentic clients in the professional field. We'll help you become an innovative, socially sensitive, user-centred designer in a domain that you choose.

You'll steer this by selecting semesters from our curriculum, such as design engineering, responsible design, smart objects, international insights, prototyping and craftsmanship, strategic design and design aesthetics and perception. You'll complete the programme with a final project at an existing company, or by setting up your own company.

\* Tuition fees are set annually. Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

Curriculum		
Year 1	<b>Semester A: Basics of IDE</b>	<b>Semester B</b>
	<ul style="list-style-type: none"> <li>Group project and methodology</li> <li>User research</li> <li>Construction</li> <li>Business</li> <li>Personal branding</li> </ul>	<ul style="list-style-type: none"> <li>Cultural diversity</li> <li>Team dynamics</li> <li>Portfolio design</li> <li>(Rapid) prototyping</li> <li>Visualisation and communication</li> </ul>
Year 2	<b>Semester C</b>	<b>Semester D</b>
	<b>Choose one of the semesters from the full menu, for example:</b> <ul style="list-style-type: none"> <li>Design with nature</li> <li>Smart objects</li> <li>Prototyping</li> <li>Craftsmanship</li> </ul>	<b>Choose one of the semesters from the full menu:</b> <ul style="list-style-type: none"> <li>Economics of mass production design</li> <li>International insights</li> <li>Exploring new technologies</li> <li>Entrepreneurship</li> </ul>
Year 3	<b>Semester E</b>	<b>Semester F: Final project and graduation</b>
	<b>Choose one of the semesters from the full menu</b> <ul style="list-style-type: none"> <li>Or a minor, international exchange or internship</li> <li>Or take part in our very own design agency</li> </ul>	<ul style="list-style-type: none"> <li>Final project at a company, NGO or governmental organisation</li> <li>Or start your own company</li> <li>Graduation</li> </ul>

# International Business (IB-4)

- ✓ **Duration: 4 years**
- ✓ **Accreditation: NVAO**
- ✓ **Tuition fees\*:**  
EU/EEA € 2,083  
Non EU/EEA € 8,140
- ✓ **Application deadline:**  
Non-EU/EEA: 1 May 2020  
Dutch: 1 May 2020  
EU/EEA: 1 May 2020

IB at The Hague University of Applied Sciences will prepare you for a successful international business career. It provides a strong grounding in traditional economics, covering the vital areas of marketing, sales, finance and management. In-depth modules give you an insight into business careers, while working with fellow international students will give you the experience of a global team.

You'll get the chance to take part in projects and internships with international companies, which will facilitate your growth to become a successful business professional.

\* Tuition fees are set annually. Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

Curriculum	
<b>Year 1</b>	<ul style="list-style-type: none"> <li>• Business Math</li> <li>• Marketing Fundamentals</li> <li>• Management &amp; Organisation</li> <li>• Introduction to Business Communication</li> <li>• International Business Environment</li> <li>• Thinking in Action I: Introduction to Critical Thinking</li> <li>• Accounting I</li> <li>• Integrated Project 1</li> </ul>
<b>Year 2</b>	<ul style="list-style-type: none"> <li>• Economics</li> <li>• Statistics &amp; Research I</li> <li>• Finance I</li> <li>• International Business Law</li> <li>• Public Speaking for Business</li> <li>• Operations and Sales</li> <li>• Language &amp; Culture</li> <li>• Integrated Project 2</li> <li>• Personal &amp; Professional Development</li> </ul>
<b>Year 3</b>	<ul style="list-style-type: none"> <li>• Supply Chain &amp; Operations</li> <li>• Statistics &amp; Research II</li> <li>• Language &amp; Culture II</li> <li>• Ethics, Compliance &amp; Sustainability</li> <li>• Accounting for Decision Makers</li> <li>• International Business Law II</li> <li>• Integrated Project 3: International Business &amp; Economic Analysis</li> </ul>
<b>Year 4</b>	<p>At International Business students use specializations to either broaden their scope of expertise or specialize in a subject that they are interested in. These specializations run alongside regular modules.</p> <p><b>Specializations include:</b></p> <ul style="list-style-type: none"> <li>• Marketing</li> <li>• Supply Chain and Operations Management</li> <li>• Finance</li> <li>• Human Resource Management</li> </ul> <p><b>Study Abroad:</b> Following a semester specializing students spend a semester on exchange in one of IB's 170 partner universities in around 43 countries. During this semester students experience different cultures, and teaching and learning styles, as well as take new business modules.</p> <p><b>The Internship:</b> Having built up a comprehensive bank of theoretical knowledge and engaged in various exercises in which you were able to try your hand at applying the theories to business cases and projects in classrooms, the internship offers you the opportunity to apply the theories in the professional field.</p> <p><b>The Final Thesis:</b> Also known as the final integrated project, the thesis comprises an applied research, which each individual student is to independently carry out in a real-life international business context, typically as an assignment from a sponsor company. IP8 enables students to investigate a particular business problem (by doing both secondary and primary research) that the sponsor company seeks to resolve, and to build a strong evidence base for addressing that problem. As such IP8 provides students with the opportunity to actively contribute to decision-making in a real business environment, integrating and culminating the competences acquired throughout the International Business curriculum.</p>

Please check [www.thehagueuniversity.com/ib](http://www.thehagueuniversity.com/ib) for the most up to date information on the curriculum and admission requirements.

<b>Year 3</b>	<ul style="list-style-type: none"> <li>• Statistics &amp; Research II</li> <li>• Ethics, Compliance &amp; Sustainability</li> <li>• Marketing &amp; Sales II</li> <li>• Thinking in Action II:</li> <li>• Information Management</li> <li>• People &amp; Organisation</li> <li>• Integrated Project 3: International Business &amp; Economic Analysis</li> </ul>
<b>Year 3</b>	<ul style="list-style-type: none"> <li>• Personal &amp; Professional Development</li> <li>• Integrated Project 4: Research Report</li> <li>• Specialisations include                             <ul style="list-style-type: none"> <li>• Marketing</li> <li>• Supply Chain &amp; Operations Management</li> <li>• Finance</li> <li>• People &amp; Organisation</li> </ul> </li> </ul>
<b>Year 3</b>	<p><b>The Internship:</b> Having built up a comprehensive bank of theoretical knowledge and engaged in various exercises in which you were able to try your hand at applying the theories to business cases and projects in classrooms, the internship offers you the opportunity to apply the theories in the professional field.</p> <p><b>The Final Thesis:</b> Also known as the final integrated project, the thesis comprises an applied research, which each individual student is to independently carry out in a real-life international business context, typically as an assignment from a sponsor company. IP8 enables students to investigate a particular business problem (by doing both secondary and primary research) that the sponsor company seeks to resolve, and to build a strong evidence base for addressing that problem. As such IP8 provides students with the opportunity to actively contribute to decision-making in a real business environment, integrating and culminating the competences acquired throughout the International Business curriculum.</p>

# International Communication Management (ICM)

- ✓ **Duration: 3 years**
- ✓ **Accreditation: NVAO**
- ✓ **Tuition fees\*:**  
EU/EEA € 2,083  
Non EU/EEA € 8,140
- ✓ **Application deadline:**  
Non-EU/EEA: 1 May 2020  
Dutch: 1 May 2020  
EU/EEA: 1 May 2020

The programme is truly international with a highly international student body and faculty; international work placement component and an international study exchange opportunity. The programme is structured according to meeting the communications needs within the: public, corporate and marketing sectors and students will learn through a mixture of classes covering: essential content, relevant skills and working on real-world group projects.

The ICM philosophy believes that as communication specialists, students can help organisations to better understand and connect with their stakeholders to build stronger relationships and more sustainable businesses that can accelerate positive change. As an ICM student you will be exposed to a world of different perspectives and exciting challenges. You will become a critical and creative thinker with a global view and develop a strong international network of fellow-communication professionals - who will help shape the way global brands, NGO's and governments contribute to society.

\* Tuition fees are set annually. Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

# International and European Law (LAW)

- ✓ **Duration: 4 years**
- ✓ **Accreditation: NVAO**
- ✓ **Tuition fees\*:**  
EU/EEA € 2,083  
Non EU/EEA € 8,140
- ✓ **Application deadline:**  
Non-EU/EEA: 1 May 2020  
Dutch: 1 May 2020  
EU/EEA: 1 May 2020

This unique bachelors degree is taught in English and offers a curriculum that teaches international, European and comparative law from the first year onwards. As a university of applied sciences, we'll ensure that you acquire the professional and research skills to make you exceptionally employable.

Through an ambitious and practice-oriented learning environment, we aim to educate world citizens and form excellent and adaptable legal professionals who embrace today's and tomorrow's legal challenges and opportunities.

With a strong focus on legal training in an international environment, the bachelor will boost your ability to analyse legal problems, form an international perspective and develop your critical thinking skills. It will prepare you for a wide variety of international careers, working for multinational or governmental organisations, companies and NGOs. Studying in world's capital of Peace, Justice and Security means you'll be right in the hub of international law. Study here and you can work anywhere!

\* Tuition fees are set annually. Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

# International Public Management (IPM)

- ✓ **Duration: 4 years**
- ✓ **Accreditation: NVAO**
- ✓ **Tuition fees\*:**  
EU/EEA € 2,083  
Non EU/EEA € 8,140
- ✓ **Application deadline:**  
Non-EU/EEA: 1 May 2020  
Dutch: 1 May 2020  
EU/EEA: 1 May 2020

International Public Management (IPM) is a four-year degree programme which equips you with a broad skillset and enables you to work within the public sector, non-profit organisations or even the private sector.

Many students (both local and international) come to our programme with the desire to improve upon pressing and often complex global issues such as those relating to human rights, peace and security, international trade or global warming.

Therefore, if you enjoy deepening your knowledge in a number of subjects, working on addressing global problems whilst at the same time developing critical thinking and analytical skills, the IPM programme may very well suit you.

Upon graduation you may find work both locally and internationally as a programme or project manager, consultant, analyst, civil servant and policy maker, or within the private sector. Over 60% of our graduates go on to pursue a master's degree at an academic research university.

\* Tuition fees are set annually. Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

Curriculum

# International Sport Management (ISPM)

- ✓ **Duration: 3 years**
- ✓ **Accreditation: NVAO**
- ✓ **Tuition fees\*:**  
EU/EEA € 2,083  
Non EU/EEA € 8,140
- ✓ **Application deadline:**  
Non-EU/EEA: 1 May 2020  
Dutch: 1 May 2020  
EU/EEA: 1 May 2020

Sports is something that touches the lives of nearly everyone – perhaps as an active participant or merely as spectator.

If you have a passion for sport, work as a team-player and have a global outlook and interest in business, this bachelors could help you become part of that. ISPM is quite literally the fast track to an exciting career in international sport management. In just three years, you can learn how to be the essential interface between sport, business and the wider community.

You will learn about topics regarding management, sport, policy, finance and research. You will also though combine it with practical experience that includes, for example an international field trip in Europe, and an internship during the second quarter of the second year.

Throughout the programme you will have the chance to interact with outside organisations and events – for example, in 2020 the Invictus games will be hosted on the campus.

After you graduate you may want to start your career. That may be in areas like sports events from city marathons to Olympic games, sports marketing, national sports agencies or NGOs.

\* Tuition fees are set annually. Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

## Sport Campus Zuiderpark

A state-of-the-art sport and educational facility

Please check [www.thehagueuniversity.com/ispm](http://www.thehagueuniversity.com/ispm) for the most up to date information on the curriculum and admission requirements.

# Process and Food Technology (PFT-4) and (PFT-3)

- ✓ **Duration: 3 or 4 years**
- ✓ **Accreditation: NVAO**
- ✓ **Tuition fees\*:**  
EU/EEA € 2,083  
Non EU/EEA € 8,140
- ✓ **Application deadline:**  
Non-EU/EEA: 1 May 2020  
Dutch: 1 May 2020  
EU/EEA: 1 May 2020

Manufacturing of everyday products such as food & drinks, coatings, cosmetics, medicines, etc. requires industrial production processes. In order to fully understand these processes, knowledge of Chemistry, Physics, Biology and Food Technology is essential. Within the PFT programme, you will be trained to master these disciplines to the level where you can design/develop, research, troubleshoot or even optimize these processes. Additionally, concepts such as safety, sustainability, social responsibility and internationalization will be introduced and used.

Right from the beginning you will be participating in projects that are as close as possible to the work field. The necessary theory will be provided as lectures and workshops. Participating in these projects will help you to choose a minor and an internship (either in The Netherlands or abroad) later in the programme.

In the final year you can specialize into a chemical- or food technologist. You round off the PFT programme with a graduation internship at a company.

\* Tuition fees are set annually. Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

- Please check [www.thehagueuniversity.com/pft](http://www.thehagueuniversity.com/pft) for the most up to date information on the curriculum and admission requirements for PFT4.
- Please check [www.thehagueuniversity.com/pft-3](http://www.thehagueuniversity.com/pft-3) for the most up to date information on the curriculum and admission requirements for PFT3.

# Safety and Security Management Studies (SSMS)

- ✓ **Duration: 4 years**
- ✓ **Accreditation: NVAO**
- ✓ **Tuition fees\*:**  
EU/EEA € 2,083  
Non EU/EEA € 8,140
- ✓ **Application deadline:**  
Non-EU/EEA: 1 May 2020  
Dutch: 1 May 2020  
EU/EEA: 1 May 2020

The SSMS programme focuses on the safety and security of people, organisations and public spaces. There is a growing demand in the labour market for professionals who can formulate and implement safety and security requirements.

The programme teaches you to take decisive action, develop necessary measures and convince others of their urgency. You'll work closely with fellow students on practical assignments with close support from our lecturers.

\* Tuition fees are set annually. Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

# User Experience Design (UXD)

## Bachelor of Science in Communication and Multimedia Design

UXD is all about studying people's experiences, emotions, values and goals. At THUAS, you'll learn to apply research and design methods to design meaningful experiences for people's daily lives. We offer an environment in which you are challenged to experiment with technology and research, trying out new ways to create and evaluate experiences. Over the course of this programme, you will develop into a curious, creative, and critical designer capable of prototyping innovative concepts based on solid user research.

# OUR MASTER'S PROGRAMMES

If you've finished a bachelor's degree and are thinking about continuing your studies, or have some work experience and want to further your knowledge and skills, a masters could be your next step.

THUAS offers three globally orientated master's programmes taught entirely in English. They take one year full-time or two years part-time to complete and you'll work with students and staff from different nationalities. Part-time masters are only open to students with full Dutch residential status.

In the last phase of your programme, you'll work on a thesis in close collaboration with a company or organisation.

Find out more about THUAS's master's programmes at [www.thehagueuniversity.com/programmes/masters](http://www.thehagueuniversity.com/programmes/masters)

# Master of Business Administration (MBA)

- ✓ **Duration:** 1 year full-time, 2 years part-time
- ✓ **Accreditation:** NVAO
- ✓ **Tuition fee\*:** € 19,900  
Installments € 20,400
- ✓ **Application deadline\*:**  
Non-EU/EEA: 31 May 2020  
EU/EEA: 31 August 2020

The MBA programme will develop your business expertise for future executive and strategic roles. The MBA is the world's most recognised and sought after post-graduate degree and is often a prerequisite for a top management job.

With more than 15 nationalities in one class, you can start developing your international network straight away.

\* Tuition fees and application deadlines are set annually. Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

Curriculum		
Phase 1	Financial accounting	The objective of this course is to understand the process of recording, summarizing and reporting the myriad of transactions resulting from business operations over a period of time. These transactions are summarized in the preparation of financial statements, including the balance sheet, income statement and cash flow statement.
	Organisational behaviour	The objective of the course is to provide an understanding of the behaviour of people in organisations, sociology, decision making, team work and management.
	Leadership Development	The objective of this course is to understand how leadership is created and further developed. Different types of leadership roles and the effectiveness in different situations. During this course you have to reflect upon your own leadership development.
	Business research methods	The course facilitates students in identifying, discussing and formulating qualitative and quantitative research methods. Students will gain an overview of methodology, academic writing and will learn to critically analyse published research.
	Operations management	Translating competitive priorities into processes, the course explores the designing, controlling and management of processes, as well as discussing the concepts of value chain management.
	Strategic management	The main objective revolves around the concepts of strategies and creating one, as well as the impact of external actors from an ethical, social, technological and environmental angle.
Phase 2	Business Research Methods	The course facilitates students in identifying, discussing and formulating qualitative and quantitative research methods. Students will gain an overview of methodology, academic writing and will learn to critically analyse published research.
	Integration (Consultancy)	Combining all theory and knowledge of core modules, by giving advice on a real business case in collaboration with a real company, applying consultancy skills, board presentations, data collection and interpretation.
	Managerial Economics	Managerial economics provides a general overview of conceptual and metrical economics as well as discussing concepts of market values and government intervention, among others.
	Human resource management	The course brings an understanding of the impact of global challenges and the opportunities they bring about to a business. Furthermore discussing the new role businesses play in a society and their impacts and responsibility.
	Marketing management	The programme combines traditional and modern marketing methods, and covers the aspects of data analysis, competitors, positioning and marketing planning.
	Management accounting	The course covers accounting for decision makers and explores financial concepts including solvability, ROI and cost analysis.
Phase 3	Entrepreneurship and innovation	Creating value for stakeholders, the program helps students enhance their entrepreneurial skills, enabling them to introduce new ideas, products or services through innovation management.
	Business Analytics	The course provides the skills to use tools for data analysis to support decision making as well as placing emphasis on critical thinking. The course also focuses on the application of statistics in quality.
	Corporate finance	The course focuses on decision making from a financial aspect, by gaining an understanding of risk management through an analysis of investments and the calculation of decisions and alternatives.
	CSR & Social Entrepreneurship	The course brings an understanding of the impact of global challenges and the opportunities they bring about to a business. Furthermore discussing the new role businesses play in a society and their impacts and responsibility.
Phase 4	Thesis	Through applied research, students develop solutions for a while combining both theory and field research through the integration of all modules.

Please check [www.thehagueuniversity.com/mba](http://www.thehagueuniversity.com/mba) for the most up to date information on the curriculum and admission requirements.

# Master of Financial Management and Control (MSc)

- ✓ **Duration:** 1 year full-time, 2 years part-time
- ✓ **Accreditation:** NVAO
- ✓ **Tuition fee\*:** € 16,750  
Installments € 17,250
- ✓ **Application deadline:**  
Non-EU/EEA: 31 May 2020  
EU/EEA: 31 August 2020

The Masters of Financial Management and Control programme focusses on Business Control. After laying the foundation with courses in Financial Management the programmes goes on with courses in the broader field of Business Control, like Risk Management, International Corporate Governance and Management Control Systems. A research line is an essential part of the programme. Within this line modern (big) Data Analytics has his place. After graduating the student has the knowledge and the skills to function in a management team in an international company, e.g. as Business Controller or Financial Director.

\* Tuition fees and application deadlines are set annually.  
Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

Curriculum		
Phase 1	<b>Management Accounting</b>	Includes practical examples and activities that gives the student the skills and knowledge to help an organization manage its resources and achieve strategic goals.
	<b>Financial Accounting</b>	Concerned with the preparation of financial statements for decision makers and the skills to prepare financial statements according to international regulations and interpret them.
	<b>International Tax Law</b>	Provides an introduction to International Business Law covering its definitions and basic concepts and the approaches to universal principles of law through practical examples of disputes.
	<b>Organisational behaviour</b>	Introduces the student to the field of Organizational Behavior and Leadership equipping him/her with the skills, tools, knowledge and awareness on a managerial level in diverse types of organizations.
	<b>Treasury Management</b>	Provides a comprehensive overview of the principles and concepts of sound international financial management and key areas of international finance, macro-economic trends and developments, investment theory and research.
Phase 2	<b>(Big) Data Analytics</b>	Modern data analytics: collecting, analyzing data using statistical methods. Applying these techniques in applied quantitative research.
	<b>Research methodology</b>	Introduces the student to what applied research is in the area of business, finance, control and management and a number of research methods useful for academic and applied research practices.
	<b>Risk Management</b>	Presents a comprehensive overview of risk management as a valuable management tool. It offers a comprehensive approach to the identification, valuation, control and monitoring of risks.
	<b>International Corporate Governance</b>	Introduces theories and practices concerning corporate governance from different perspectives and to the development, preparation and execution in thinking about governance.
	<b>External Reporting</b>	Presents students with the capacity to advise general management on the application of standards and regulations in the preparation of annual accounts of international (stock listed) companies.
Phase 3	<b>Corporate Finance</b>	Equips students with the skills and knowledge to identify, analyse and interpret financial information from a corporate finance perspective.
	<b>Management Control systems</b>	Designed to broaden and deepen the student's conceptual and technical understanding of control as it is used for management purposes.
	<b>Operations Management</b>	Develops the skills for students to translate competitive priorities into processes to achieve company goals through designing, controlling and managing these processes.
	<b>Accounting information systems</b>	Includes integrated practical examples and activities gives the student the skills and knowledge to identify, analyse, interpret and communicate information to help an organization manage its resources and achieve strategic goals.
	<b>Operational auditing</b>	Equips students with the skills and knowledge to identify, analyse, interpret and communicate information to help an organization manage its resources and achieve strategic goals from an operational auditing perspective.
	<b>Critical Thinking</b>	Presents a framework for argument analysis by learning to identify the particular elements of the arguments and applying intellectual standards in order to evaluate those elements.
	<b>Professional Skills</b>	Focuses on developing professional skills such as presentation techniques, negotiation skills and networking. A peer-to-peer weekend with students from other international master programs is part of this module.
Phase 4	<b>Thesis</b>	Applying practical research and ultimately writing the Master thesis is the largest single piece of work the student is required to complete in order to be awarded the Master degree in Financial Management & Control.

# Master International Communication Management (MA)

- ✓ **Duration:** 1 year full-time, 2 years part-time
- ✓ **Accreditation:** NVAO
- ✓ **Tuition fee\*:** € 16,750  
Installments € 17,250
- ✓ **Application deadline:**  
Non-EU/EEA: 31 May 2020  
EU/EEA: 31 August 2020

The demand for communication professionals is growing as more companies, NGOs, governmental institutions and other organisations are doing business internationally.

The Master International Communication Management is designed to develop your expertise in researching, developing and managing complex communication strategies on a global scale. Courses cover corporate communication, media relations, social media and brand management, to name a few.

\* Tuition fees and application deadlines are set annually.  
Please check [www.thehagueuniversity.com](http://www.thehagueuniversity.com) for updated figures.

Curriculum	
<b>Managing cross-cultural communication</b>	This course explores theories and communication practice amongst individuals and organisations in multicultural and international contexts. You'll develop the insights and skills to manage communication within organisations and across borders, involving diverse stakeholders.
<b>Managing corporate communication</b>	We look at the key fields of corporate communication and provide an overview of themes and topics covered by the MICM programme. You'll develop an understanding of topics including corporate communication, stakeholder management and sustainability with insights into the unity of the field.
<b>Managing internal communication</b>	We cover key internal communication topics, including the development and implementation of communication strategies within organisations. We take a look at internal diversity, as well as the alignment of employees and other stakeholder groups with strategic goals.
<b>Brand management</b>	Explore brand management in contemporary communications to develop an understanding of the relationships between corporate communication, public relations, marketing and branding. In this course, you may undertake a project with senior brand managers in a leading international company.
<b>Communication research and methodologies</b>	We look at the design and evaluation of research projects in communication. You'll get the time to plan field and desk research for your final thesis project and develop your proposal.
<b>Managing media relations</b>	We explore the evolving media landscape and how this impacts the role of communication professionals. You'll learn how to manage media relations for maximal influence, using traditional and new media.
<b>Managing social media</b>	A study of social media and how it's changing the job descriptions of communication professionals in our world. You'll develop an understanding of major social media trends, related channels and tools and explore strategic approaches to manage social media effectively.
<b>Managing crisis communication</b>	You'll learn about issue management, crisis prevention and effective communication during a crisis. During this course, we will simulate a real life crisis to strengthen your skills and allow you to reflect on the most effective crisis communication strategies.
<b>Professional skills</b>	This element runs throughout the programme. You'll learn and practice useful professional skills, for example, writing a communication plan, personal branding and consulting skills.
<b>Thesis</b>	The final course of MICM is the thesis project. You will find your own client and serve them with valuable advice about a strategic international communication problem.

Please check [www.thehagueuniversity.com/micm](http://www.thehagueuniversity.com/micm) for the most up to date information on the curriculum and admission requirements.

# OUR OTHER PROGRAMMES

At THUAS we also teach some shorter international programmes. We offer a range of exchange programmes, summer and winter school modular courses looking at solving global challenges, PREP School, offering support to international students before they start their degree and The Hague Pathway College.

Find out more about THUAS's other courses  
[www.thehagueuniversity.com/programmes/other-courses](http://www.thehagueuniversity.com/programmes/other-courses)

# The Hague Summer and Winter School

- ✓ **Duration:**  
**Summer School**  
 2 or 4 weeks in July  
**Winter School**  
 2 weeks in January
- ✓ **Tuition fees\*:**  
 4 weeks: € 3.400  
 2 weeks: € 1.750

\* The one-off fee includes tuition, accommodation, lunches and coffee breaks on class days, study materials (except books), in-programme cultural visits and social activities. Tuition fees are set annually. Please check [www.thehaguesummerschool.com](http://www.thehaguesummerschool.com) for updated figures.

Do you want to make a difference to the world's big issues? Are you interested in looking at global issues from an interdisciplinary perspective? The Hague Summer School (THSS) in the Netherlands is a cutting-edge two or four week modular course, which looks at solving global issues by connecting the public and private sectors. We look at these 'wicked' problems through the eyes of engineers, social scientists, entrepreneurs and human rights and security professionals.

The Hague University of Applied Sciences encourages everyone to invest in change. We want to train students in becoming world citizens to improve the world we live in. There is no better place to learn and practice world citizenship than in The Hague, the International City of Peace and Justice and the political, cultural heart of the Netherlands.

The cutting edge two or four-week modular course is open to you if you've completed the first year of a bachelor's degree, or already have a bachelor's degree. You should have a good working knowledge of the English language (level B2 or higher). THSS is a modular course made up of general and elective modules. You can choose to study for a two-week or four-week period. The two-week summer course consists of a general module and an elective module of your choice. The

four-week summer course consists of two general modules and two elective modules.

All courses in The Hague Summer School are linked to the United Nations' Sustainable Development Goals. The Hague Summer School always focuses on wicked problems. As a student you can choose different modules varying from Entrepreneurship to Human Rights and from Health, Well-Being and Culture to Sustainable Cities.

On successful completion of the course, you'll be rewarded with four European Credit Transfer System points (ECTS) for two weeks, or eight ECTS for four weeks and a certificate.

# The English Academic Preparation School (PREP School)

If you are planning to study in The Hague or the Netherlands, our English Academic Preparation School will help you gain the level of English and study skills you need for an international education. We will also ease you into the Dutch lifestyle, as we teach you about Dutch customs and culture.

## New study skills

The course, which can be taken for a year (starting in September) or a semester (starting in February), will improve your English skills to enable you to enrol in our English-language bachelor's or master's degrees. You will also get used to working in an international and interactive learning environment, using academic skills such as researching, academic reading and essay writing, as well as presenting skills and working in teams on projects. PREP School embraces the latest interactive techniques and students are provided with online learning programmes.

The Dutch system may employ interactive teaching methods that seem unfamiliar at first. Students take a proactive role and learn to critically evaluate. PREP School will help you develop these effective learning skills, so you will be ready for your degree programme.

## Find your feet

During your time at PREP School, we will make sure that all the hard work is mixed with fun, extra-curricular activities. This way you will make friends easily, within PREP School, but also from other programmes, and be able to build a network in The Hague.

Living overseas and studying entirely in English in an international-style classroom can be daunting at first, so PREP School will ease you in through group

projects, field trips and cultural events. Once you have built your confidence, your English, social and cultural skills will follow. You will be surprised at how quickly your English improves when you work with other international students.

## The PREP School curriculum

During the course there is a strong

focus on intensive English study, especially in the beginning. Reading, writing, listening and speaking are all taught as separate skills, as well as integrated in the classes. We will also apply the English and academic skills you need for a successful international academic career to writing essays and reports, research, presenting, reasoning, evaluating, analyzing, critical thinking, debate and team work.

## Alina Milovanova

Russia

**“ This is a good place to study English and probably the only one where you can be sure to get the skills to express all your ideas and interact in English with many different people. ”**

Alina's English wasn't up to the required level to enrol directly in a Bachelor's programme, so she signed up for a 12-month course at PREP School. Now halfway through the PREP School course, she feels she has made the right choice.

She's also pleased she has some Russian classmates and gets on so well with her fellow students from countries like China, Iran and Colombia. The opportunity offered by the PREP School of making friends and networking while at the same time improving your English means for Alina that the hard work is alternated with lots of fun. She enjoys the strong focus on language skills. "After just two months, my English had already improved to the point where I understood much more and no longer stumbled when I pronounced tricky words. Speaking and thinking in English is now much easier for me. We also learn about different customs and societies." With her PREP School diploma in her pocket she feels she has every reason to face the future with confidence.

Find out more about the English Academic Preparation School at [www.thehagueuniversity.com/prepschool](http://www.thehagueuniversity.com/prepschool)

# The Hague Pathway College

Located right on the The Hague University of Applied Sciences (THUAS) campus, The Hague Pathway College (THPC) offers academic pathways in partnership with the University, which lead to globally recognised undergraduate degrees.

The Hague University of Applied Sciences offers you the opportunity to take an international foundation year after which you will be admissible to our 3-year English-taught Bachelor's programmes. The one-year programme combines academic study, English language training and study skills to prepare you for degree-level study.

After successfully completing of The Hague Pathway's College International Foundation, you have guaranteed

admissibility to the Bachelor's programme you chose without any additional testing like IELTS or otherwise.

Next to the programme's academic focus we help you to adjust to academic and social life in your new country. We offer plenty of academic support to prepare for your future study success. Soon after arrival you will feel amazed about your new group of international friends, and your quick academic and English progress.

	International Foundation - Full year	International Foundation - Fast-track
<b>Duration</b>	September - June	January - June
<b>Application deadline</b>	1 July	1 November
<b>Tuition fee</b>	€12,500	€9,250
<b>General English Language Requirements</b>	IELTS 5.0 overall (5.0 in writing and no other scores below 4.5) or equivalent in TOEFL, TOEIC and Cambridge English	IELTS 5.5 overall (5.5 in writing and no other scores below 5.0) or equivalent in TOEFL, TOEIC and Cambridge English
<b>Academic Entry Requirements</b>	Secondary school leaving certificates, with good grades in relevant subjects, are accepted from most countries in the world	Secondary school leaving certificates, with good grades in relevant subjects, are accepted from most countries in the world

## Undergraduate degrees

The International Foundation programme prepares students to progress to the following Bachelor's 3-year Bachelor's degree programmes at The Hague University of Applied Sciences:

Management and Social Sciences	Technology and Design
• BBA International Business	• BSc Industrial Design Engineering
• BSc International Financial Management and Control	• BSc User Experience Design
• BA European Studies	• BSc Process and Food Technology
• BA International Communication Management	
• BA International Sport Management	

The teaching programme has a unique and innovative approach by offering an integrated approach to developing English language skills, academic skills and subject knowledge like Mathematics, Physics or Business. During foundation year you will work on projects with a team of other students from around the world. Just like you will do when starting your Bachelor's programme at The Hague University of Applied Sciences.

Learn in English  
& improve your  
academic skills

Make friends with  
students from  
across the globe

Adjust to a new home  
with personalised  
support

The Hague Pathway College brings you a step closer to your academic dream and offers you an unforgettable learning experience.

# Exchange & free movers

- ✓ **Duration:**  
6 months or 1 year
- ✓ **Language of instruction:**  
English
- ✓ **Locations:**  
The Hague Main Campus  
Delft Campus  
Zoetermeer Campus
- ✓ **Periods:**  
Starting in September  
and February

Do you want to go on exchange to one of the best destinations for an experience abroad? Look no further. For a truly international exchange experience come to The Hague University of Applied Sciences. Located in The Hague, the international city of Peace and Justice. The university participates in the European Erasmus network. We also have a large number of bilateral agreements that enable students from all over the world to join us for a semester or academic year.

THUAS offers a wide range of courses to exchange students that are completely taught in English ranging from Business to Engineering and Social Work to IT. The specific subject area that you can choose courses from depends on the type of agreement that has been signed between us and your home university. If you are a free mover, a student of a non-partner institution of THUAS and you would like to do an exchange, you need to meet the pre-requisites for the course as well have a good command of the English language. (IELTS 6.0 or TOEFL 213 or 80).

Studying at THUAS means you will study in an international environment with students

from almost over 150 different countries. All of our programmes revolve around group and project work and simulate real-life situations. During interactive classes, your lecturers will ask questions, set assignments and encourage debates and presentations to hone analytical skills that are critical in your future job.

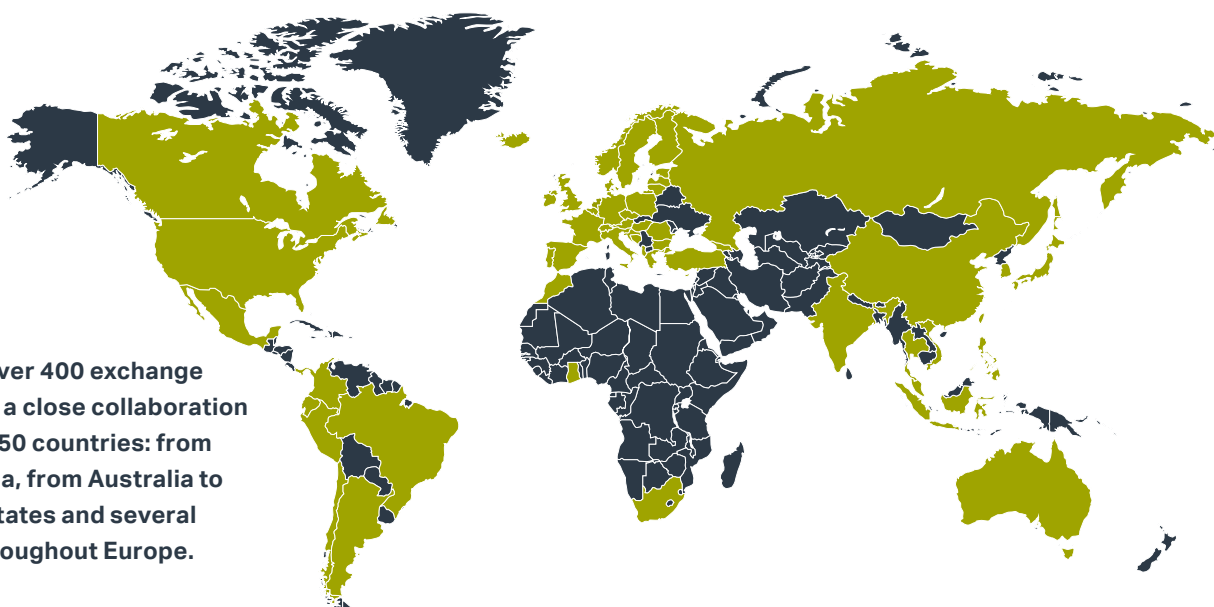

As you might want to learn more about our small country and discover different aspects of Dutch society THUAS also offers a semester long programme to introduce you to the Netherlands and The Hague and includes topics such as Dutch history, art, politics, economy, water management and many more. Of

course there is plenty of time to meet new people, be involved in different student organizations, explore the Netherlands and Europe and most importantly make new friends from all over the world!

Want to learn more on the possibilities to come and join us for your exchange as an exchange or free mover student, please get in touch with the Erasmus/International Office of your home university.

They can inform you on the procedures and can help you with the application process.

THUAS has over 400 exchange partners and a close collaboration in more than 50 countries: from Brazil to China, from Australia to The United States and several countries throughout Europe.

For more information about semester dates, deadlines for application and courses and fees (only for free movers) please visit:  
<https://www.thehagueuniversity.com/programmes/other-courses>

# Get prepared!

Deciding what and where to study after you leave school is a major decision and it is important to get it right, as it will affect your future success. To help you with this, THUAS offers a number of resources and events.

If you've chosen to study at THUAS, it's time to tick all the boxes on our practical checklist and complete the right paperwork to move abroad.

## STEP

### 1

## Choose the right programme

Need some help deciding on the right programme? Some events and activities will give you a feel for THUAS.

### Open days

Open days at THUAS are the ideal opportunity to find out about study programmes, speak first hand to students and lecturers and tour the impressive campus.

Find out about the next open day at  
[www.thehagueuniversity.com/open-day](https://www.thehagueuniversity.com/open-day)

### Shadow a student

Find out what a typical day of study is like for one of our students and spend the day with them. You can arrange this with your chosen programme.

<https://www.thehagueuniversity.com/study-choice/help-in-choosing-your-study/shadow-a-student>

### The Hague Matching Days

'The Hague Matching Days' is a great way to meet future lecturers, fellow students, talk to existing THUAS students, get some practical information and confirm that your programme is the right one for you. We'll give you the dates of these sessions, once you've been accepted on your chosen programme.

[www.thehagueuniversity.com/study-choice/help-in-choosing-your-study/the-hague-matching-days](https://www.thehagueuniversity.com/study-choice/help-in-choosing-your-study/the-hague-matching-days)

### THUAS to-do list

- ✓ Decide which programme is right for you by attending one or more of THUAS's events
- ✓ Find out if you meet the admission requirements
- ✓ Start your preparations well in advance (at least a year)
- ✓ Check out if you can apply for a scholarship
- ✓ Apply for your visa, residence permit and health insurance
- ✓ Find accommodation in The Hague
- ✓ Link up with other students by following us on Facebook at [www.facebook.com/thehagueuniversity](https://www.facebook.com/thehagueuniversity) and Instagram @thehagueuniversity.

## Meet us around the world

You don't need to jet into The Hague to get more information about our English bachelors and master's programmes. We'll bring the information to you. Meet us in your home country, or one that's close by and get the lowdown on our programmes. We exhibit at international education fairs - as far afield as Brazil and Moldova.

## Meet our representatives around the world

Our representatives stationed around the globe can also talk you through our programmes and entry procedures. Albania, Azerbaijan, Brazil, Bulgaria, China, Croatia, Czech Republic, Estonia, Georgia, Greece, Hungary, Indonesia, Ireland, Kazakhstan, Latvia, Lithuania, Mexico, Moldova, Nigeria, Poland, Portugal, Romania, Russia, Slovakia, South Korea, Ukraine, United Kingdom and Vietnam all have representatives.

It's quite possible that we'll be at an education fair near you, or that our representative is based in your home city.

## Ask a student, graduate or lecturer

Our current students and alumni can give you a real insight and honest opinions about life on campus, specific study programmes and what the future holds after graduation. Get in touch via our Facebook page at [www.facebook.com/thehagueuniversity](https://www.facebook.com/thehagueuniversity), or through your programme.

For the latest information on study choice events and activities check: <https://www.thehagueuniversity.com/study-choice/help-in-choosing-your-study>

## About visiting open days

### Ásíyih Barker

International and European Law student from the United States of America

“ I was very calculating in my choice of school. I am from the USA, so I had to be really sure that I wanted to live here. Before I made my decision, I went to open days at Groningen, Maastricht and other universities, including THUAS. I travelled all around Holland and I saw something in THUAS which was different. Here was a school where you get taught skills, like how to work in teams. That was so exciting to me. I realised this was a big part of what's important in education and what employers look for. ”

## Our academic year

Our academic year starts around 1st September and ends in mid-July. It's divided into two semesters, which are broken down into two periods of six weeks, with a week free between them. The free weeks fall in February/March, May and October. There is also a two week Christmas break.

## STEP 2

# Admission requirements

When you have chosen your programme, it's time to find out if you meet the admissions requirements.

### Applying for bachelor's programmes

You'll need the equivalent of a Dutch HAVO or VWO diploma to apply for our bachelor's programmes. If you hold a non-Dutch diploma, your eligibility will be assessed against Nuffic guidelines ([www.nuffic.nl](http://www.nuffic.nl)).

Once you have filled out the relevant forms and applied, it's time to sit tight and wait while the admissions committee consider your application. This process can take several weeks.

Find out more about application requirements at [www.thehagueuniversity.com/enrolment](http://www.thehagueuniversity.com/enrolment)

### What if you don't meet the entry requirements?

Don't worry, there are still alternative ways to help you get in.

#### 21+ admissions test

If you're 21 before 1 September 2020 but don't have a diploma or a qualification that meets the entry requirements, you can take the 21+ Admissions Test. To be eligible to participate, you must be a citizen of a EU/EEA country or Switzerland, or already have a valid residence permit for the Netherlands.

Find out more at [www.thehagueuniversity.nl/21plus](http://www.thehagueuniversity.nl/21plus)

### The Hague Pathway College

If you'd like to apply for a 3 year bachelor's programme but don't meet the academic entry requirements, you might be interested in joining The Hague Pathway College, offered by our authorized partner Navitas. Their one year foundation programme will offer you the chance to bring your academic level up to the required level. If needed, there is the opportunity to work on your English at the same time.

Find out more at [www.thehaguepathway.nl](http://www.thehaguepathway.nl)

### Applying for master's programmes

The entry requirements for our master's programmes vary according to the programme. Applicants must be aged 22 or older and all three of our masters require a minimum of two years of relevant work experience. Masters applicants must have a bachelor degree from a recognised university or academic institution.

Find out more at [www.thehagueuniversity.com/programmes/masters](http://www.thehagueuniversity.com/programmes/masters)

### Good to know

- ✓ All THUAS programmes are accredited by The Accreditation Organisation of the Netherlands, [www.nvao.com](http://www.nvao.com)

## English language requirements

Our international bachelors and master's programmes are taught entirely in English, so you'll need a good command of spoken and written English.

If you're educated in the Netherlands, UK, Ireland, USA, Canada (except Quebec), Australia, New Zealand, South Africa, Malta, or hold a diploma (including English as an exam subject) listed at [www.thehagueuniversity.nl/enrolment](http://www.thehagueuniversity.nl/enrolment), you don't need to take an English proficiency test.

If you are applying for a master's programme and have completed an English-taught bachelor's programme, you may also be exempt from an English proficiency test.

All other applicants are required to have a valid and sufficient English proficiency test.

Find out more at  
[www.thehagueuniversity.com/enrolment](http://www.thehagueuniversity.com/enrolment)

## Applying for the English Academic Preparation programme

If you don't have the proficiency in English that you need in order to enrol on your chosen programme, you can apply for the English Academic Preparation programme, or Prep School, which takes six months or one year. On completion of this course, you'll be ready to join a bachelors programme and will have a working knowledge of The Netherlands, The Hague and THUAS under your belt.

To be admitted to Prep School, you need to be eligible for the programme you wish to take after completing the course and have an IELTS or TOEFL test result with sufficient score.

Find out more at  
[www.thehagueuniversity.com/prepschool](http://www.thehagueuniversity.com/prepschool)

## Applying for The Hague Summer and Winter School

The Hague Summer and Winter School are open to anyone who has completed a first year bachelor's degree, or already has a bachelors degree. So both undergraduate and graduate students are welcome to apply. You should have a good working knowledge of the English language (level B2 or higher) before you apply.

The last entry criteria to The Hague Summer and Winter School is your ambition. When you apply, 'motivation' is one of the most important parts of the selection process.

Find out more at  
[www.thehaguesummerschool.com](http://www.thehaguesummerschool.com)

## STEP ③

# Scholarships and finances

EU/EEA and non-EU/EEA students pay tuition fees for bachelors and master's programmes. So it's time to do the maths and explore the loans, grants and scholarships that may be available to finance your studies at THUAS.

### Bachelor's and master's programmes

EU/EEA bachelor's students pay € 2,083 per year and most non-EU/EEA pay € 8,140. Tuition fees vary between € 16,750 and € 23,500 for a masters.

### Other Programmes

The Hague Summer and Winter School has a one-off fee which covers all of your main costs including tuition, accommodation, lunches and coffee breaks on class days, study materials and in-programme cultural visits and social activities.

The four-week course costs € 3,400 and the two-week course costs € 1,750, but discounts may apply. Prep School costs € 4,250 for the half-year and € 8,250 for the full year course.

Please visit [www.thehagueuniversity.com/tuitionfees](http://www.thehagueuniversity.com/tuitionfees) to check our current tuition fees. New tuition fees are set annually.

### Scholarships

International students should check if any scholarships are available in their home country. Your local Dutch embassy and present college or university should be able to help with information and application forms.

It's also worth checking to see if you are eligible for THUAS's Holland Scholarship.

Find out more at [www.thehagueuniversity.com/scholarships](http://www.thehagueuniversity.com/scholarships)

### Monthly expenses

You'll also need to take your monthly expenses on accommodation, food and living into account and budget for your time at THUAS.

Experience has shown that students living in the Netherlands for one year spend between € 800 and € 1100 a month.

An average room in the Netherlands costs somewhere between € 400 and € 700 a month. The costs depend on the type of room you have, what is included in the rent, if the room is furnished, if you will have to share your room (or the facilities) and the size of the room. Don't forget to budget about € 650 per year for medical insurance. Bachelors first year students will also need to invest from € 500 to € 800 on books and materials.

To give you some approximate figures, bread and rice cost around € 1.50 at the supermarket. A return train ticket from The Hague to Amsterdam costs around € 24.40.

Find out more about financing your bachelor study and living in the Netherlands at [www.thehagueuniversity.com/financing-your-bachelor-study](http://www.thehagueuniversity.com/financing-your-bachelor-study)

## STEP 4

# Visas and permits

EU and EEA students don't need a visa to enter the Netherlands. All other students in general require an entry visa and/or residence permit.

If you do require a visa or residence permit, the good news is that THUAS will apply on your behalf. All you have to do is transfer a package fee and upload the relevant documents. More information about the procedure and documentation will be provided after acceptance.

Find out more about visas and permits at [www.thehagueuniversity.com/study-choice/applications-finances-and-moving-here/immigration-and-visas](http://www.thehagueuniversity.com/study-choice/applications-finances-and-moving-here/immigration-and-visas)

## STEP 5

# Accommodation

THUAS doesn't provide student accommodation, but we can recommend organisations that rent furnished rooms to international students.

If you pay THUAS's housing fee of € 250 you can make use of accommodation that is already reserved through the university. The number of rooms available is limited, and rooms are allocated on a first paid first served basis.

Find out more about living in The Hague at [www.thehagueuniversity.com/housing](http://www.thehagueuniversity.com/housing)

# CONTACT US

If you are interested in studying at THUAS, there are many ways to get in touch. Making the right study choice is a life changing decision and we're here to guide you through the process.
